

SimBrace®

Ideal for Sheeting

...the right choice

Oriented Strand Board (OSB) is the most used structural board for timber framed buildings in many parts of the world (e.g. USA and Europe) having replaced plywood and particleboard in most applications.

SimBrace® is made of 100% fresh pinewood from thinnings of PEFC/FSC® certified sustainable forests. The strands are glued together with formaldehyde-free binders – this means SimBrace® can be used for food packaging applications.

SimBrace® is a durable, high quality, environmentally sustainable and innovative structural bracing panel which has been designed and manufactured specifically for the Australian Building and Construction market.

SimBrace® is CE Certified under EN 13986 and produced in accordance with EN 300.

SWISS KRONO

An Environmental Friendly and Sustainable SimBrace®

SimBrace® Untreated

SimBrace® is a high quality, moisture resistant, environmentally sustainable, structural bracing panel manufactured to the Australian Building and Construction Code.

SimBrace® H2 Treated

SimBrace® H2 is identical to untreated SimBrace® but has the advantage of being H2 termite treated to add extra protection in accordance with the Australian Building and Construction Code.

SimBrace® can be used with standard woodworking tools and can be purchased with PEFC or FSC® certification on request.

SimBrace® complies with the Building code of Australia:

BCA 2014 Volume 1 Clause BP1.1 "Structure" (a), (b) i, ii, iii for flooring, roof decking and wall sheeting (See Conditions a), b), d), e)). BCA 2014 Volume 2 Clause P2.1.1 "Structure" (a), (b) i, ii, iii for flooring, roof decking and wall sheeting (see conditions a), b), d), e)). Timber structures supporting the panel must be designed and constructed in accordance with AS1684.2:2010 and AS1684.3:2010 as applicable (for all conditions and limitations please check the certificate of conformity).

Sheet Sizes Available in both Untreated & H2 Treated

2440 x 900 x 6mm
2440 x 1200 x 6mm

2745 x 900 x 6mm
2745 x 1200 x 6mm

3050 x 900 x 6mm
3050 x 1200 x 6mm
